

Asia Education Leader Forum (Summer)

Exploring Breakthroughs for Future Education

10:00-12:00 JST Saturday 17 September 2022

Since the onset of the pandemic, we are investigating more educational challenges than we ever have before. To do this, we need to engage and find ways to forge a new social contract for exploring educational breakthroughs that we can utilize to strengthen education as a public endeavor and a common good. This forum invites students from AELC (Asia Education Leader Course) member universities and students from other partner universities to share their research and practices in education and other relevant fields, discuss and share their understanding and insights on forging a new social contract for future education. It is expected to provide learners' voices in higher education to address opportunities and challenges for fulfilling educational efforts.

Submissions are invited on the following themes:

- A. Internationalization and higher education
- B. Pedagogical approaches and teaching
- C. Education and innovation
- D. Inclusive education and lifelong learning
- E. Education policy and administration

ABSTRACT SUBMISSION DEADLINE: 5 September 2022.

For any inquiries, please contact AELC Coordinators at your university.
