

Dear 3rd year students,

## Distribution of Graduation Requirement Checklist

The Academic Affairs Section has prepared a simple checklist for third-year students scheduled to graduate in 2026 to confirm the number of credits required for graduation. The checklist will be posted on the website, so please print it out and use it accordingly.

The online course registration period for the second semester of the 2025 academic year is from Wednesday, October 1st to Tuesday, October 14th.

All students are required to complete course registration after confirming graduation requirements.

\*Please note that in order to submit a graduation research proposal in your fourth year, you must have earned at least 86 credits through the second semester of your third year.
